SUMMARY

Full-Stack Developer with 3+ years of experience building scalable web applications using Node.js, Express.js, and React.js. Experienced in designing secure RESTful APIs, implementing JWT authentication and RBAC, and delivering production systems across procurement, hospitality, telecom, and e-commerce.

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.io

Database: MySQL, MongoDB

Tools: Git, GitHub, Postman, Jira, Redis, Docker

EXPERIENCE

Full Stack Developer - RCS Tech

Jul 2025 - Present

Bengaluru, Karnataka

- Developing enterprise Vendor Management and Procurement-to-Pay (P2P) systems using Node.js and Express.js.
- Designing secure RESTful APIs with JWT-based authentication and role-based access control (RBAC).
- Building automated compliance reporting modules to streamline regulatory and operational processes.
- Optimizing MySQL queries and backend services for improved scalability and performance.

Full Stack Developer (Freelance) - Independent

Aug 2024 - Jun 2025

New Delhi, India

- Developed NandNiwas, an old age home & resort management system with room management, resident tracking, and automated invoice generation.
- Built 96Astro, an astrology platform enabling course purchases, real-time text/video consultations, and integrated e-commerce.
- Designed admin modules for astrologer management, order handling, and user activity monitoring.
- Implemented real-time communication using Socket.io and secure payment workflows.

Full Stack Developer - Einsicht Technologies

Jan 2023 - Aug 2024

Hyderabad, India

- Developed a telecom CRM system managing SIM cards, tariffs, smartphones, and customer lifecycle workflows.
- Built and maintained responsive frontend applications using React.js.
- Designed RESTful APIs and backend services using Node.js and MySQL.
- Collaborated with cross-functional teams to deliver high-quality, production-ready solutions.

Full Stack Developer (Freelance) - Einsicht Technologies

Apr 2022 - Dec 2022

Hyderabad, India

- Developed Metallorum, an online gold listing and selling platform.
- Implemented real-time pricing updates via API integrations.
- Designed secure backend architecture and integrated payment gateway workflows.
- Built a dashboard for managing product listings, transactions, and analytics.

PROJECTS

Vendor Management & Procurement-to-Pay (P2P) Platform

Enterprise procurement workflows including vendor onboarding, invoice processing, approval hierarchies, and compliance automation, with JWT-based auth and RBAC. (Node.js, Express.js, MySQL, JWT)

NandNiwas - Old Age Home & Resort Management System

Full-stack room booking and billing automation supporting long-term residents and short-term resort stays, with admin dashboards for resident tracking and invoicing. (Node.js, React.js, MySQL)

96Astro - Astrology Platform & E-commerce System

Astrology course marketplace with integrated e-commerce and real-time text/video consultations between users and astrologers. (Node.js, React.js, Socket.io)

Telecom CRM Tool

CRM platform managing SIM cards, tariffs, smartphones, landline, and data services, with offer management workflows. (Node.js, React.js, MySQL)

EDUCATION

Bachelor of Technology (Mechanical Engineering)

2016 - 2020

Techno Engineering College Banipur - DGPA: 7.65
